INEBRIATE CURES. -The Pennsylvania Sanitarium, or asylum, for inebrates, has been in operation five years, and during that time has had under its care 275 persons addicted to intoxication either by alcohol or opium. One hundred and twenty-six of these have been citizens of Philadelphia, and a statement of results shows nine who have maintained their sobriety for four years, eleven for three years, ten for two years, eleven for one year and eighteen for less than one year. It is proper to observe, however, that four of the whole number have died since they left the institution, three of consumption and one of fever. Of the per centage of recoveries in cases not belonging to Philadelphia the directors say they cannot speak with the same accuracy, from the fact that they have not the same accuracy. that they have not the same means of following them up and knowing their history; but satisfactory reports are received from many. Even if the success of such institutions were less, the rescue of only a few from the fate which overtakes the victim of habitual intoxication would deserve the generous sympathy of the com-

The Journal des Debats relates that on the 3d ult. the great theatre at Nijini-Novgorod, which contains 1,000 persons, was full, the piece to be represented being singularly enough, "Crime and its Punishment." During the first act a report was suddenly heard, a slight smoke filled the upper part of the theatre, and a cry of "Fire!" was raised. There was a rush for the doors, but only one was open; the terror became general; many persons were thrown down and trampled upon; when the thieves who had combined to raise this alarm commenced operations; tore rings from the ears of the women and watches and studs from the men, the plundering going on for about ten minutes. Quiet and order being restored, it was found that property valued at more than 100,000 roubles had been carid off. Several persons were killed, an actress received a serious wound, and three men and women were carrid to a hospital. The light-fingered gentlemen all contrived to escape.

We again present to the agricultural community our Fertilizers with renewed confidence, as equal, if not superior, to any manure offered for all crops, not excepting Peruvian Guano. Year by year their value has become more manifest, as demonstrated by largely increased sales, and we challenge any brand to show more satisfac-tory and uniform results. Confining our manu-facture to materials of highest standard, as proved by analysis, we claim like results in all time. On the Wheat crop the testimony is of unquestionable character. We respectfully call attention to our popular Guano, known as

GENUINE PHOSPHO-PERUVIAN GUANO, made of the highest standard of Peruvian Guano

and Bone Phosphate of Lime, with Alkaline Salts of Potash, Soda, &c. BRANDED AA,

C ntaining 6 to 8 per cent Amminia.

ly \$70 per ton.
The character of this Guano is so well known as to need but little further commendation from us. Used for many years, it has become a favorite with all consumers, and it only requires a trial to convince all of its value. The Ammonia and Bone Phosphate being in rational propor-tions, it can hardly fail to render satisfaction, improving the quality and increasing the cropit adds one other most important essential in the permanent improvement of the land—in this particular we question whether it has its equal. It acts wonderfully upon the grass crop, and to such an extent as to bring improverished lands up to a high state of fertility—equalling Bone Dust. Such is the testimony of many accomplished plan'ers. We beg the closest investigation as to the integrity and manufacture of our compounds, and earnestly invite all consumers to inspect our works, material used, and mode of
